### Re: Notification of Positive COVID-19 Case in Moore Building

It is with an abundance of caution that we are sharing the following information with you. Environment, Health & Safety (EHS) has determined through case investigation that a positive student visited practice rooms in this building several days last week (9/1, 9/2, 9/3 and 9/4). Per practice room use protocol, each user disinfects the room after each use. In addition, the practice rooms, as well as common areas and restrooms are cleaned and disinfected daily by custodial services.

Public health community notification is done to proactively make the U-M community aware of positive cases on campus and potential exposures. We are following our protocol for sharing publicly about potential exposures to infectious diseases, like COVID-19, mumps, Norovirus. EHS working in conjunction with the health department has conducted a risk assessment to determine who may have been in close contact<sup>1</sup> with the infected individual and has provided specific instructions if quarantine is required. **If you were not directly contacted by an EHS contact tracer, you are considered to be a low exposure risk and there is no need to quarantine or isolate.** All Moore Building students and employees should continue to adhere to the guidance below.

- Wear a face covering or mask.
- Practice physical distancing by spacing yourself at least six feet away from others.
- Stay home when you are sick.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.
- Continue to monitor for [symptoms of COVID-19](#) which include but are not limited to:
  - Fever
  - Cough
  - Shortness of Breath

If you are a student and are sick or have questions related to COVID-19 call [University Health Service](#) (UHS) at 734-764-8320. UHS does provide testing for COVID-19. Be sure to follow the guidance of your healthcare provider and local health department.

If you are an employee and are sick or have questions related to COVID-19, call [Occupational Health Services](#) at 734-764-8021. The OHS COVID-19 Call Center is available Monday - Friday 7:00 am – 5:00 pm and Saturday 7:00am – 12:00pm. Employees calling outside of normal business hours can leave a message and OHS will follow up within 24 hours.

---

<sup>1</sup> Close Contact is defined as any of the following even if you or the other person wore a mask: being less than 6 feet apart for 15 minutes or more (regardless of mask use or indoor/outdoor setting), if you were coughed on or sneezed on, hugging or kissing, sharing of utensils or drinking glasses, or are a roommate, intimate partner, or caregiver.

We want to reassure everyone that we take your health and safety seriously. Additional resources regarding COVID-19 can be found on the following websites:
