Re: South Quad 6th and 8th floor update:

Currently, all tests completed since Thursday for South Quad residents on the 6th and 8th floors have come back negative. While there are still a few tests pending, this is great news and we thank all of you for your help.

In consultation with the Washtenaw County Health Department, you will need to continue to practice enhanced social distancing until October 1. Due to the long incubation period of the COVID-19, it is possible for individuals to become positive up to 14 days after exposure." As a reminder you can still go to in-person classes if a remote option is not available and to get food. It is also permissible to go outside and get some fresh air either for exercise, studying or to eat your meal. Just be sure to wear a face covering while in public areas and remain socially distant from others.
If you develop COVID-19 symptoms, please go here to start the assessment process at UHS, or call 734-764-8320.

Thank you once again for your prompt action to be tested.
Stay well.
