FACULTY/STAFF

I HAVE SYMPTOMS

Students with COVID-19 symptoms can be tested at University Health Service. Testing is available seven days a week.

Students who do not have confirmed close contact but are worried about potential exposure can sign up for the U-M COVID-19 Community Sampling and Tracking program.

Students preparing to travel for other reasons can be tested through U-M testing programs.

Students who are unsure but believe they may have had a confirmed close contact can also be tested at University Health Service.

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

I DO NOT HAVE SYMPTOMS BUT WOULD LIKE TO GET TESTED

Faculty, staff, health professions students (medicine, dentistry, nursing, pharmacy) and student employees who are confirmed close contacts can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

Students who do not have confirmed close contact but are worried about potential exposure can sign up for the U-M COVID-19 Community Sampling and Tracking program.

Students preparing to travel for other reasons can be tested through University Health Service.

Students who are required to complete weekly mandatory testing must test through the following program:

- U-M COVID-19 Community Sampling and Tracking program
- or the Michigan Athletics testing program

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

I AM REQUIRED TO COMPLETE WEEKLY TESTING

Students who are required to complete weekly mandatory testing must test through the following program:

- U-M COVID-19 Community Sampling and Tracking program
- or the Michigan Athletics testing program

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

I AM A CONFIRMED CLOSE CONTACT* OF SOMEONE WHO HAS COVID-19

Faculty, staff, health professions students (medicine, dentistry, nursing, pharmacy) and student employees who are confirmed close contacts can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

I'M WORRIED ABOUT POSSIBLE EXPOSURE TO COVID-19 THROUGH MY LIVING/WORKING ENVIRONMENT

Students in communal living communities (through Michigan Housing or off campus) where large clusters have been identified, are required to be tested for work-related travel. For personal travel, Michigan Medicine is recommended for travel-related testing.

Student employees who are confirmed close contacts can also be tested at University Health Service.

Testing should occur between days 8 and 10.

I'M WORRIED ABOUT POSSIBLE EXPOSURE TO COVID-19

Students who are confirmed close contacts* will receive information from the Contact Tracing Corps about how to sign up for test delivery through University Health Service.

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

Students who do not have confirmed close contact but who are worried about potential exposure can sign up for the U-M COVID-19 Community Sampling and Tracking program.

Students preparing to travel for other reasons can be tested through University Health Service.

Facility or staff working where cases or clusters have been identified, regardless of whether there was a known close contact exposure, can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

Students who have COVID-19 symptoms can be tested through U-M testing programs.

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

I'M IN QUARANTINE DUE TO AN EXPOSURE

Students currently in quarantine through U-M Quarantine & Isolation Housing can request delivery of a test kit from University Health Service.

Testing should occur 8 days after exposure or later.

Undergraduate students living in Michigan Housing are required to be tested prior to leaving campus to return to their permanent residences. Students living in campus are strongly encouraged to be tested prior to leaving campus. More details on testing procedures are available through University Health Service.

Students preparing to travel for other reasons can be tested through University Health Service.

I NEED TESTING PRIOR TO A MEDICAL OR DENTAL PROCEDURE

Students with COVID-19 symptoms can be tested at University Health Service. Testing is available seven days a week.

Students who are required to complete weekly mandatory testing must test through the following program:

- U-M COVID-19 Community Sampling and Tracking program
- or the Michigan Athletics testing program

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

Students who have COVID-19 symptoms can be tested through University Health Service.

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

Students who are confirmed close contacts* will receive information from the Contact Tracing Corps about how to sign up for test delivery through University Health Service.

Testing should occur between days 8 and 10 after the exposure depending on quarantine requirements.

Students who do not have confirmed close contact but who are worried about potential exposure can sign up for the U-M COVID-19 Community Sampling and Tracking program.

Students preparing to travel for other reasons can be tested through University Health Service.

Students who do not have confirmed close contact but are worried about potential exposure can sign up for the U-M COVID-19 Community Sampling and Tracking program.
