COVID-19 SAFETY FIRST

COVID-19 TESTING SCENARIOS

I HAVE SYMPTOMS

Students with COVID-19 symptoms can be tested at University Health Service. Testing is available Monday through Saturday.

If you test positive:
- Isolate from others while arranging evaluation and testing.
- While awaiting your result, anyone who tests positive is directed to isolate.
- Anyone who tests positive is directed to isolate while arranging evaluation and testing, and while awaiting your results.

If you test negative:
- Get tested if symptoms develop.
- Students who are vaccinated and symptomatic should quarantine and get tested. Isolate if the test result is positive.

Students who are confirmed close contacts* will receive information from the Contact Tracing Corps about how to sign up for test delivery through University Health Service. People who are not fully vaccinated should quarantine for 10 days (unless advised by EHS to quarantine for 14 days if concerns for variant exposure) and be tested in 5-7 days after last exposure, or immediately if symptoms develop during quarantine.

Those who are fully vaccinated and remain asymptomatic do not need to quarantine. You should get tested around 5 days following the date of their exposure (and should quarantine until they receive a negative test). Get tested if symptoms develop.

Students who are vaccinated and symptomatic should quarantine and get tested. Isolate if the test result is positive.

Faculty, staff, health professions students (medical, dentistry, nursing, pharmacy) and student employees who are confirmed close contacts* can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

Faculty, staff, health professions students (medical, dental, nursing, pharmacy) and student employees who are confirmed close contacts* of someone who has COVID-19 and remain asymptomatic should quarantine for 10 days (unless advised by EHS to quarantine for 14 days if concerns for variant exposure) and be tested in 5-7 days after last exposure or immediately if symptoms develop during quarantine.

Those who are fully vaccinated and remain asymptomatic do not need to quarantine. You should get tested around 5 days following the date of their exposure (and should quarantine until they receive a negative test). Get tested if symptoms develop.

Faculty and staff who are vaccinated and symptomatic should quarantine and get tested. Isolate if the test result is positive.

Students who test positive for COVID-19 off-campus should report their test results to the university in order to help protect our community.

I AM A CONFIRMED CLOSE CONTACT* OF SOMEONE WHO HAS COVID-19

Students who receive a vaccine exemption or postponement are required to complete weekly mandatory testing through the U-M COVID-19 Community Sampling and Tracking Program. Students who are not vaccinated by August 30 are required to complete weekly COVID-19 testing through CSTP until they are fully vaccinated.

Faculty and staff who receive a vaccine exemption or postponement are required to complete weekly COVID-19 testing through U-M COVID-19 Community Sampling and Tracking Program. Faculty and staff who are not vaccinated by August 30 are required to complete weekly COVID-19 testing through CSTP until they are fully vaccinated.

Students in communal living communities (through Michigan Housing or off campus) where large clusters have been identified are referred on-site, pop-up testing through University Health Service based on their proximity to the cluster. Those who reside off campus or in the residence hall where cases or clusters have been identified, but not in this immediate vicinity, are encouraged to sign up for the U-M COVID-19 Community Sampling and Tracking Program.

Students with COVID-19 symptoms can be tested at University Health Service. Testing is available Monday through Saturday.

Testing is available through the U-M COVID-19 Community Sampling and Tracking Program or through University Health Service. Students should contact their medical provider. If your test comes back positive, please isolate and contact University Health Service by calling (734) 764-8321.

Faculty and staff working where cases or clusters have been identified, regardless of whether there was a known close contact exposure, can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

For medical procedures, faculty and staff should contact their medical provider. If your test comes back positive, please isolate and contact the Occupational Health Services hotline at (734) 764-8021.

I DO NOT HAVE SYMPTOMS BUT WOULD LIKE TO GET TESTED

Faculty and staff who are not fully vaccinated are required to complete weekly mandatory testing through CSTP until they are fully vaccinated.

I AM REQUIRED TO COMPLETE WEEKLY TESTING

Students who are not vaccinated by August 30 are required to complete weekly COVID-19 testing through CSTP until they are fully vaccinated.

Faculty and staff who are not vaccinated by August 30 are required to complete weekly COVID-19 testing through CSTP until they are fully vaccinated.

I'M WORRIED ABOUT POSSIBLE EXPOSURE TO COVID-19 THROUGH MY LIVING/WORKING ENVIRONMENT

Faculty or staff working where cases or clusters have been identified, regardless of whether there was a known close contact exposure, can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

Testing is available through the U-M COVID-19 Community Sampling and Tracking Program. Faculty and staff can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine for work-related travel.

For medical procedures, faculty and staff should contact their medical provider. If your test comes back positive, please isolate and contact the Occupational Health Services hotline at (734) 764-8021.

I'M IN NEED OF TESTING FOR TRAVEL, A MEDICAL PROCEDURE OR OTHER

Faculty, staff, health professions students (medical, dental, nursing, pharmacy) and student employees who are confirmed close contacts* can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

Faculty, staff, health professions students (medical, dental, nursing, pharmacy) and student employees who are confirmed close contacts* can contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.

For medical procedures, faculty and staff should contact their medical provider. If your test comes back positive, please isolate and contact the Occupational Health Services hotline at (734) 764-8021.

*A guide for the Ann Arbor U-M community on available COVID-19 testing options.

For U-M Showdown and U-M Fill It testing information, please visit their websites.

IMPORTANT: Students who test positive for COVID-19 off-campus should report their test results to the university in order to help protect our community.

I HAVE SYMPTOMS

Sign up for the U-M COVID-19 Community Sampling and Tracking Program, a free, asymptomatic testing program open Monday - Saturday to all U-M students, faculty and staff on the Ann Arbor campus, including Michigan Medicine employees.

University Health Service provides testing to students and established patients who may require testing for a program, employment, travel or pre-procedural clearance. More information about indications for testing is available here.

For medical procedures, faculty and staff should contact their medical provider. If your test comes back positive, please isolate and contact the Occupational Health Services hotline by calling (734) 764-8021 to arrange testing through Michigan Medicine.
