Date: 1/23/2021

Re: Notification of Positive COVID-19 Case in the Michigan League

Environment, Health & Safety (EHS) was notified on the evening of 1/22/2021 that a student who visited the Michigan League tested positive for COVID-19. The affected person last visited the building on 1/20/2021. Spaces where the case was present have been cleaned/disinfected or have been isolated.

Public health community notification is to proactively make the U-M community aware of positive cases on campus and potential exposures. We are following our protocol for sharing publicly about potential exposures to infectious diseases, like COVID-19, mumps, and Norovirus. EHS working in conjunction with the health department has conducted a risk assessment to determine who may have been in close contact\(^1\) with the infected individual and has provided specific instructions to those identified if quarantine is required. **If you were not directly contacted by an EHS contact tracer, there is no increased risk of exposure and there is no need to quarantine or isolate.** Employees and residents should continue to adhere to the guidance below.

- Wear a face covering or mask.
- Practice physical distancing by spacing yourself at least six feet away from others.
- Stay home when you are sick.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.
- Continue to monitor for [symptoms of COVID-19](#) using the [ResponsiBLUE Daily Symptom Tracker](#).

Winter term COVID-19 testing capacity has increased significantly and regular asymptomatic testing is available to all students, faculty and staff on the Ann Arbor campus - including Michigan Medicine - through the [Community Sampling and Tracking Program](#).

If you are a student and are sick or have questions related to COVID-19 call University Health Service (UHS) at 734-764-8320. U-M Ann Arbor undergraduate students who live on campus, are registered for an in-person or hybrid class, or who come to campus for research, work or other activities (e.g., libraries, union, Rec. Sports, Dining) in campus buildings are required to complete [weekly mandatory COVID-19 testing through U-M](#).

If you are an employee and are sick or have questions related to COVID-19, call [Occupational Health Services](#) at 734-764-8021. The OHS COVID-19 Call Center is available Monday - Friday 7:00 am – 5:00 pm and Saturday 7:00am – 12:00pm. Employees calling outside of normal business hours can leave a message and OHS will follow up within 24 hours.

---

\(^1\) Close Contact is defined as any of the following even if you or the other person wore a mask: being less than 6 feet apart for 15 minutes or more (regardless of mask use or indoor/outdoor setting), if you were coughed on or sneezed on, hugging or kissing, sharing of utensils or drinking glasses, or are a roommate, intimate partner, or caregiver.
We want to reassure everyone that we take your health and safety seriously. Previous public health community notices can be found on the link below:
