Re: Notification of Positive COVID-19 Case in Ross School of Business

Environment, Health & Safety (EHS) was notified that an individual who spent time at Ross School of Business tested positive for COVID-19. The affected person last worked in the building on 7/29/2021. Spaces where the case was present have been cleaned/disinfected or have been isolated.

Public health community notification is to proactively make the U-M community aware of positive cases on campus and potential exposures. We are following our protocol for sharing publicly about potential exposures to infectious diseases, like COVID-19, mumps, and Norovirus. EHS working in conjunction with the health department has conducted a risk assessment to determine who may have been in close contact\(^1\) with the infected individual and has provided specific instructions to those identified if quarantine is required. **If you were not directly contacted by an EHS contact tracer, there is no increased risk of exposure and there is no need to quarantine or isolate.** Students and employees should continue to adhere to the guidance below.

- Get a COVID-19 vaccine when it is available to you. U-M strongly encourages vaccination for all U-M students, staff, faculty, and eligible family members. To find a vaccination opportunity near you or schedule an appointment, visit the Michigan Medicine Finding Vaccines webpage or call 734.763.6336.
- If you are unvaccinated, wear a face covering in accordance with the U-M face covering policy and practice social distancing as feasible.
- Stay home when you are sick.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.
- Continue to monitor for symptoms of COVID-19 using the ResponsiBLUE Daily Symptom Tracker

If you are an employee and are sick or have questions related to COVID-19, call Occupational Health Services at 734-764-8021. Employees calling outside of normal business hours can leave a message and OHS will follow up within 24 hours.

If you are a student and are sick or have questions related to COVID-19 call University Health Service (UHS) at 734-764-8320.

We want to reassure everyone that we take your health and safety seriously. Previous public health community notices can be found on the link below:
