# COVID-19 Scenarios for Students Living in Off-Campus Housing

Students may shift columns based on scenario developments.

## PRACTICE ENHANCED SOCIAL DISTANCING AND SEE BELOW FOR MORE GUIDANCE.

### Scenario 1: I have **SYMPTOMS OF COVID-19**

You should **isolate** and get tested at University Health Service (UHS). Follow guidance of UHS and your healthcare provider. If you test negative, you may return to your usual living environment and activities as instructed by UHS.

### Scenario 2: I have a **POSITIVE COVID-19 TEST RESULT** (within the last 10 days)**.

Follow guidance of your health care provider and case investigator. If your test result is not from UHS or U-M, report your positive result here.

**Yes** Follow CDC guidance on how to protect others in your living environment. If your test result is not from UHS or U-M, report your positive result here.

**Assess** if your living situation is appropriate for isolation.

**Yes** Follow CDC guidance on how to protect others in your living environment. If your living environment is not appropriate for isolation, move to isolation. Options include: return to permanent residence, U-M Q&I Housing (if space is available) or other.

To arrange U-M Q&I housing, call the coordination center at 734-936-2600.

After 8 PM, remain at your residence, wear a mask and call Q&I Coordination Center the next morning after 10 AM to move to Q&I Housing.

Pack a “To Go” Bag with personal items.

### Scenario 3: I am a **CONFIRMED CLOSE CONTACT** of someone who has COVID-19.

**If you are VACCINATED:**

- You do not need to quarantine.
- Recommended: get tested at UHS 5 days after exposure.
- Wear a mask in public indoor settings for 14 days, or until your test returns negative.

**If you are UNVACCINATED:**

- Quarantine for 10 days from the last day of contact.
- Optional: get tested at UHS 7-10 days after exposure.

Visit the Contact Tracing Corps and follow their instructions.

### Scenario 4: I am worried I have been exposed to someone who has COVID-19.

Follow self-help tools from CAPS.

### Scenario 5: My test is **NEGATIVE**.

I can return to my room and classes, as long as I am not a **CLOSE CONTACT**

### Scenario 6: My test is **POSITIVE**.

Complete the 10-day isolation period and return to my usual living environment and activities as instructed by UHS

## PAUSE

**Sit off campus and isolate while awaiting test results.**

**Isolate for 10 days from the date of your test.**

**Answer calls regarding case investigation and contact tracing.**

**Quarantine for a period of 10 days after last contact.**

**If symptoms develop, get tested at University Health Service.**

## ALL CLEAR

**My test is **NEGATIVE**. I can return to my room and classes, as long as I am not a **CLOSE CONTACT**.**

**I completed the 10-day isolation period and can return to my usual living environment and activities as instructed by EHS or UHS in accordance with CDC guidelines.**

**I completed the quarantine period. If I do not have symptoms, I can return to my usual living environment and classes.**

### CampusBlueprint.umich.edu

Who to contact for:

- Medical advice: University Health Service at 734-764-8320.
- General student support/resources: Dean of Students Office at 734-764-7420 or deanofstudents@umich.edu.

Students who can do so safely may choose to return to their permanent residence to isolate/quarantine there instead of on campus/Ann Arbor.

**within 6 feet of a case for a total of 15 minutes or more in 24-hour period as determined by a public health official.**

**For those who are severely ill with COVID-19 infection or those who are severely immunocompromised, an extended duration of isolation for 20 days after symptom onset is recommended.**
