WINTER TERM COVID-19 TESTING

The U-M Winter Term COVID-19 testing plan includes major increases in asymptomatic testing that will be mandatory for undergraduates and some graduates, and expands access for many individuals in the university community.*

*Aspects of the plan are still under development.

Mandatory Testing

All students (undergraduate and graduate) living in residence halls
- Must have a negative test result prior to move-in.
- Weekly mandatory testing.
- Undergraduates must get departure testing. A negative test result is recommended prior to returning to permanent residence.

All students (undergraduate and graduate) living off-campus
- Weekly mandatory testing for students who come to campus to attend in-person classes or activities (e.g., doing research), use facilities (e.g., libraries, unions, Rec Sports, Dining) or to work on campus. Testing for this group prior to starting any on-campus activities also is required.

Expanded Available Testing & Recommendations

Undergraduate, graduate and professional students
- Weekly asymptomatic testing available for all students who are not otherwise covered by a mandatory program.
- Departure testing with a negative test result is recommended before returning to their permanent residence for undergraduate students living off campus and all graduate students.

Faculty & Staff
- Weekly asymptomatic testing available for all instructional faculty with in-person teaching and staff working on campus.

ADDITIONAL COVID-19 TESTING

- Quarantine testing for individuals in U-M quarantine housing or students living off campus and not using U-M quarantine housing.
- Surveillance testing for those not undergoing mandatory weekly testing.
- Symptomatic testing for symptomatic individuals and those who have had close contact with infected persons through University Health Service and Occupational Health Services.
